1. Introduction

NIYTRI AI (developed by BH2S Tech) is an enterprise-grade AI assistant platform designed specifically for corporates users for Knowledge sharing and learning. The platform provides multiple specialized AI chatbots for different departments including IT Support, Sales, Finance, HR, and RBI compliance. Each bot is trained to understand Indian business context, including INR currency, GST compliance, Indian holidays, and local regulations.

Key features include:

- AI assistants for different departments/teams
- Role-based access control with multiple roles per user
- Multi-factor authentication (MFA) via email OTP
- Document upload with RAG (Retrieval-Augmented Generation) capability
- Indian timezone (IST) configured for application, database and logs
- Admin module with almost all the critial features configurable
- Dark/Light theme support
- Customizable bot system prompts

2. Login & Authentication

2.1 Accessing the Platform

Open your web browser and navigate to the NIYTRI AI platform URL.

1 **Enter Email Address**

Type your company email address (e.g., yourname@bh2stech.com) in the Email field.

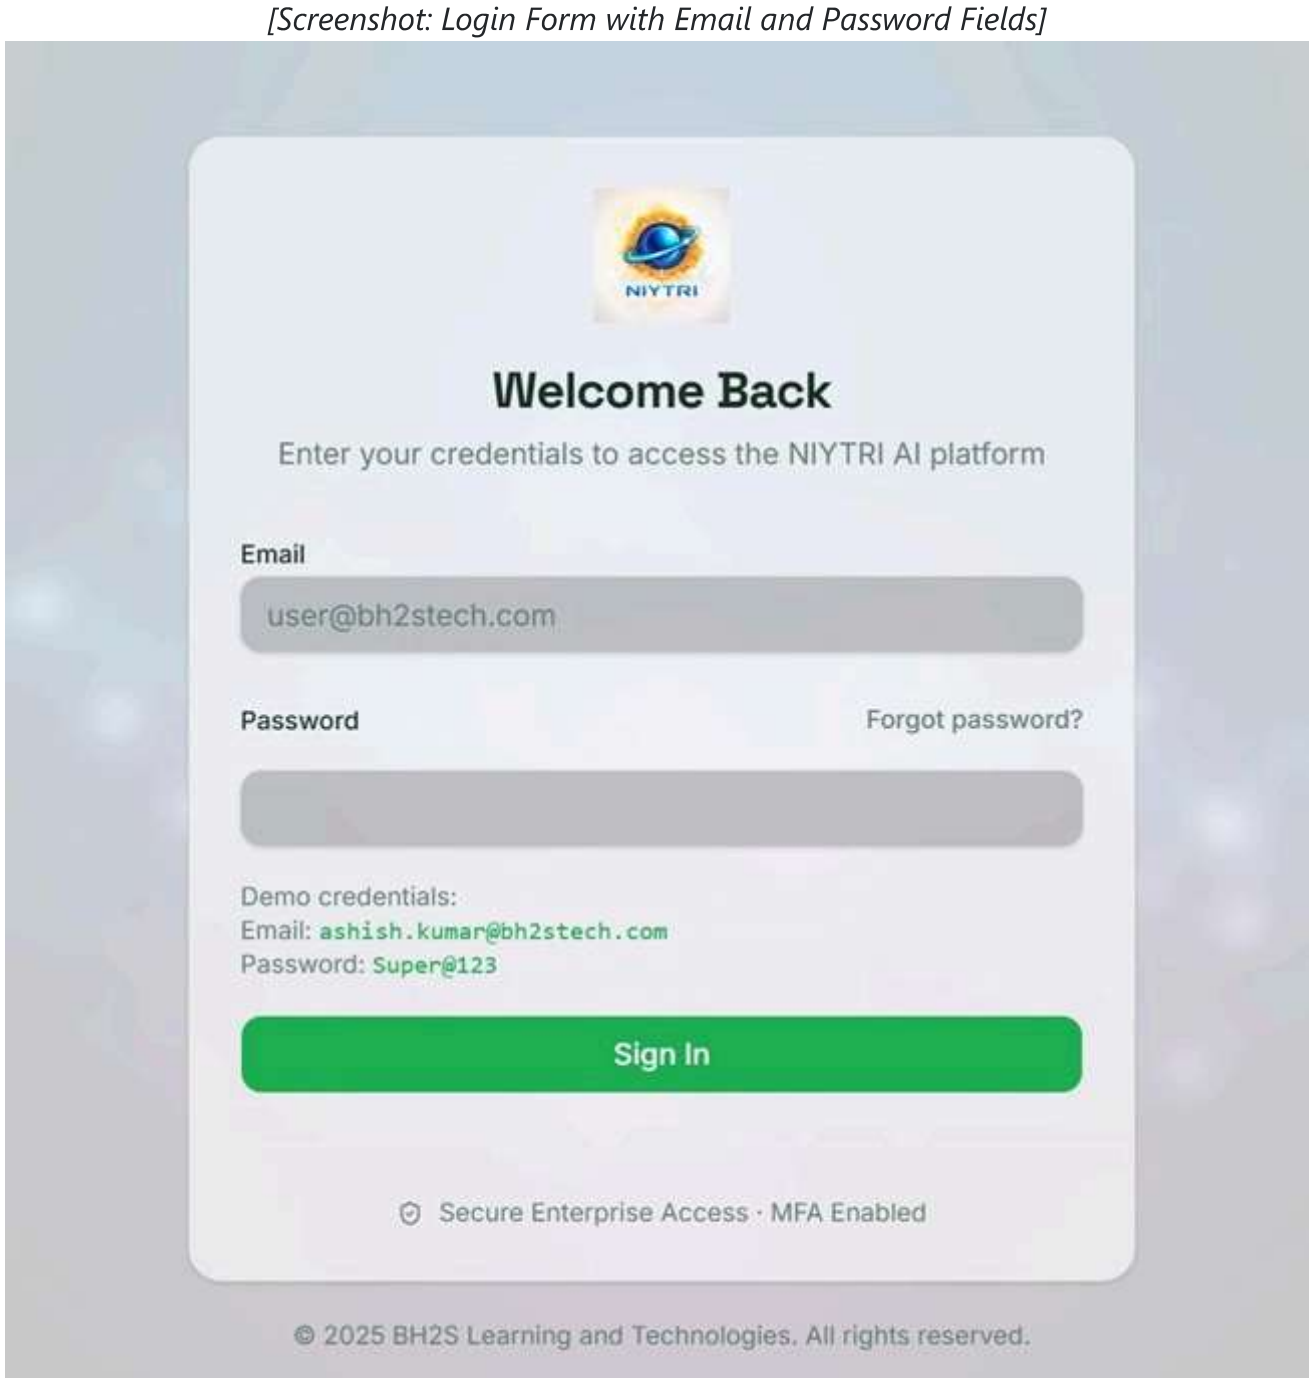
2 **Enter Password**

Type your password in the Password field.

3 **Click Sign In**

Click the "Sign In" button to proceed.

[Screenshot: Login Form with Email and Password Fields]



2.2 Multi-Factor Authentication (MFA)

If your role requires MFA, you will receive a 6-digit OTP code via email after entering your credentials.

1 **Check Your Email**

Open your email inbox and look for the verification code from NIYTRI AI.

2 **Enter OTP Code**

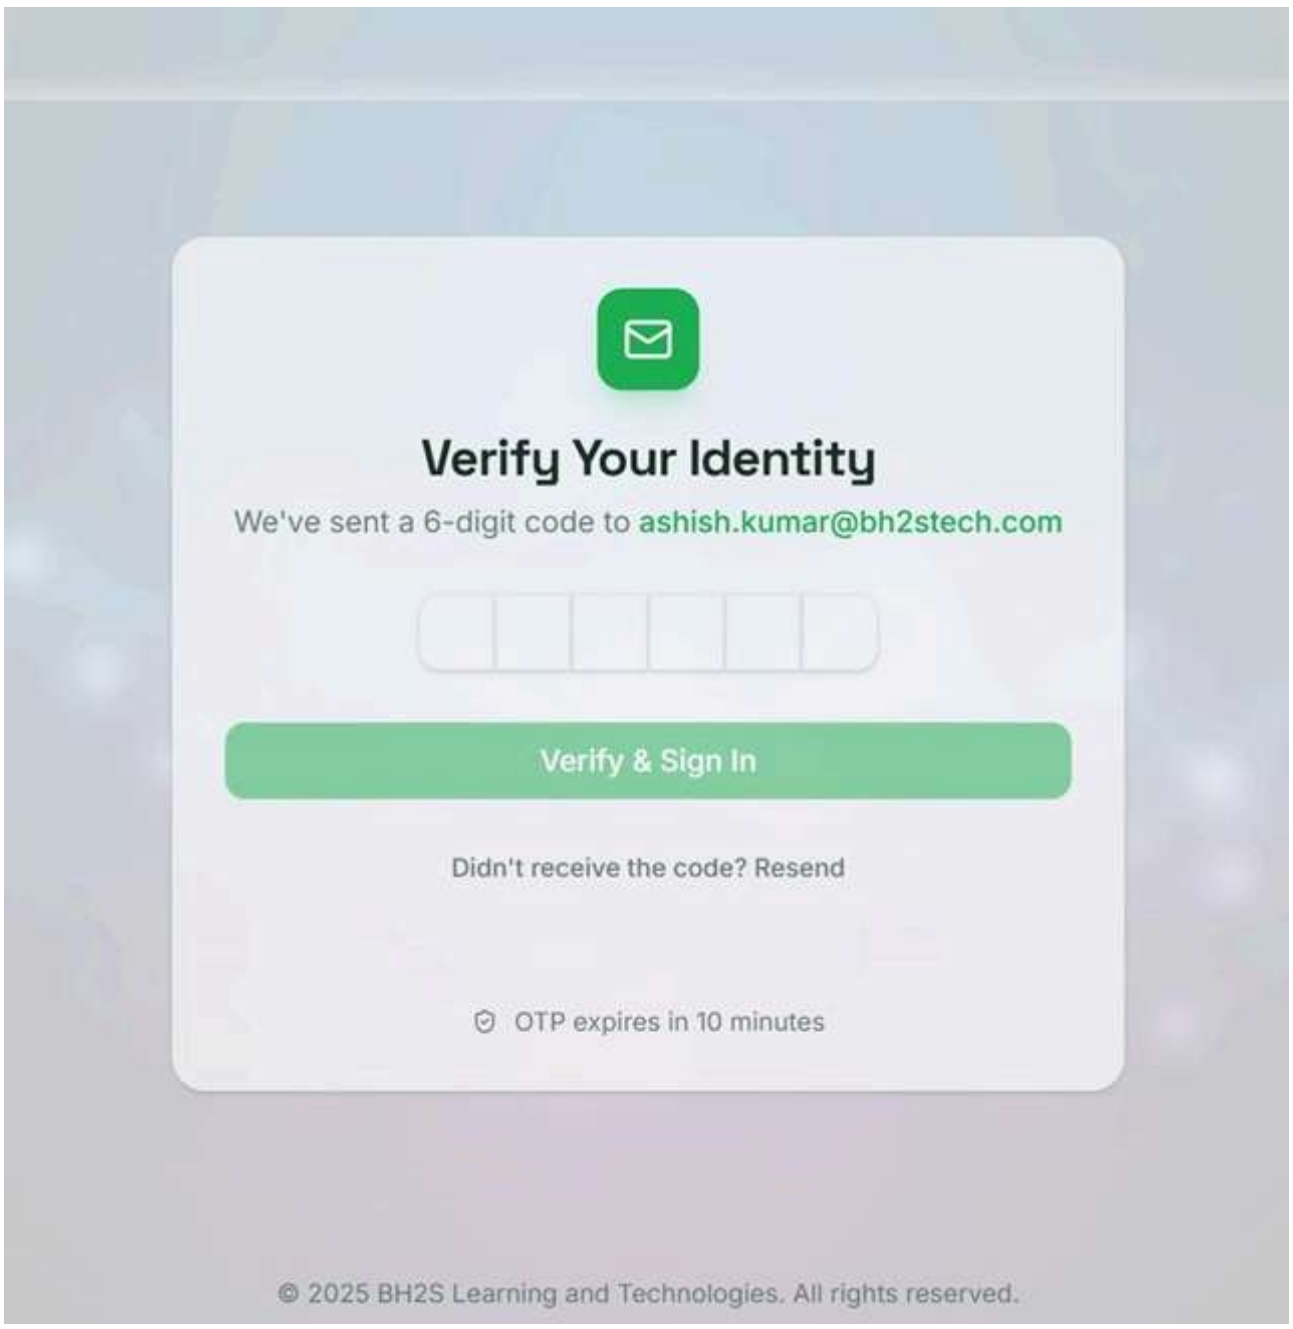
Enter the 6-digit code in the verification screen.

3 **Verify**

Click "Verify" to complete login.

Note: The OTP code expires in 10 minutes. If you don't receive the code, click "Resend" to get a new one.

[Screenshot: OTP Verification Screen]



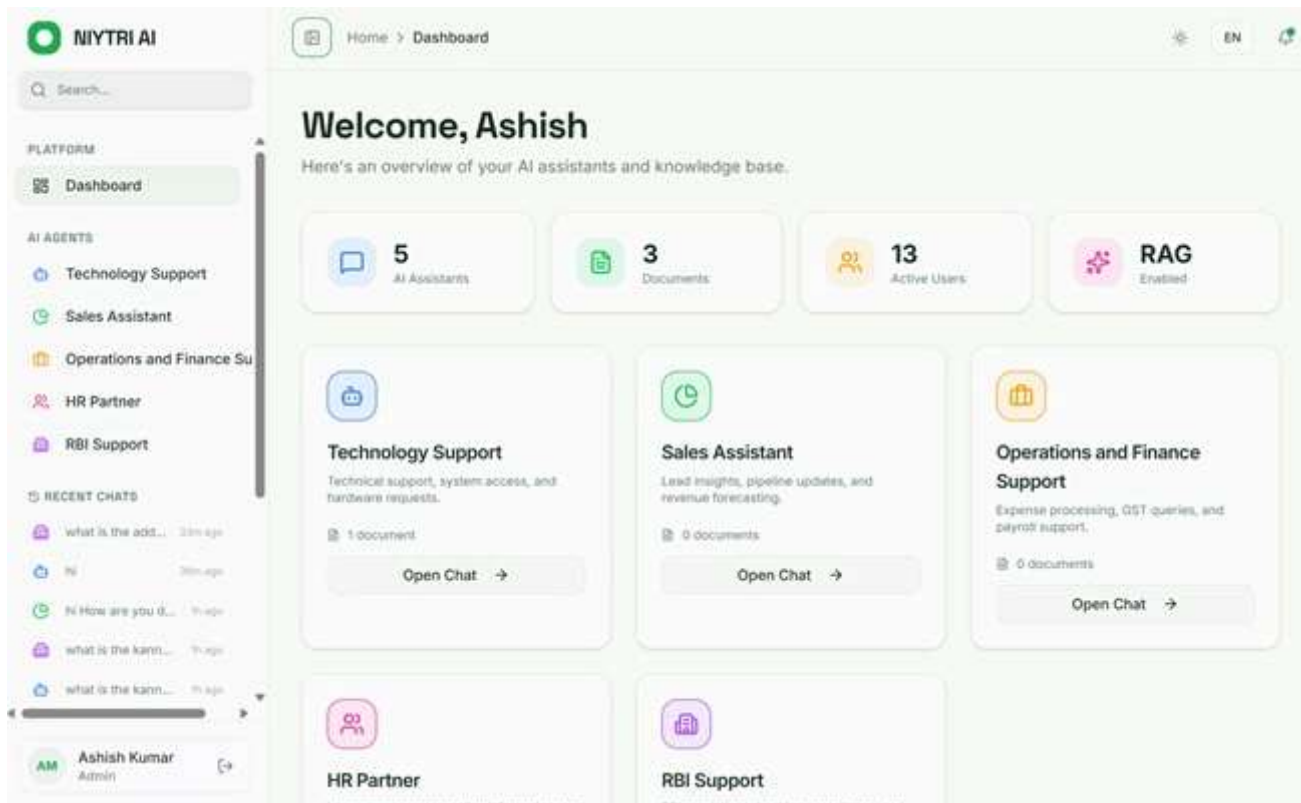
3. Dashboard Overview

After successful login, you will be directed to the Dashboard. The dashboard provides an overview of all available AI assistants and key statistics.

3.1 Dashboard Elements

- **Welcome Message:** Displays a personalized greeting with your name
- **AI Assistants Count:** Shows the number of available AI bots
- **Documents Count:** Total documents uploaded to the knowledge base
- **Active Users:** Number of users currently using the platform
- **Bot Cards:** Quick access cards for each AI assistant

[Screenshot: Dashboard with Statistics and Bot Cards]

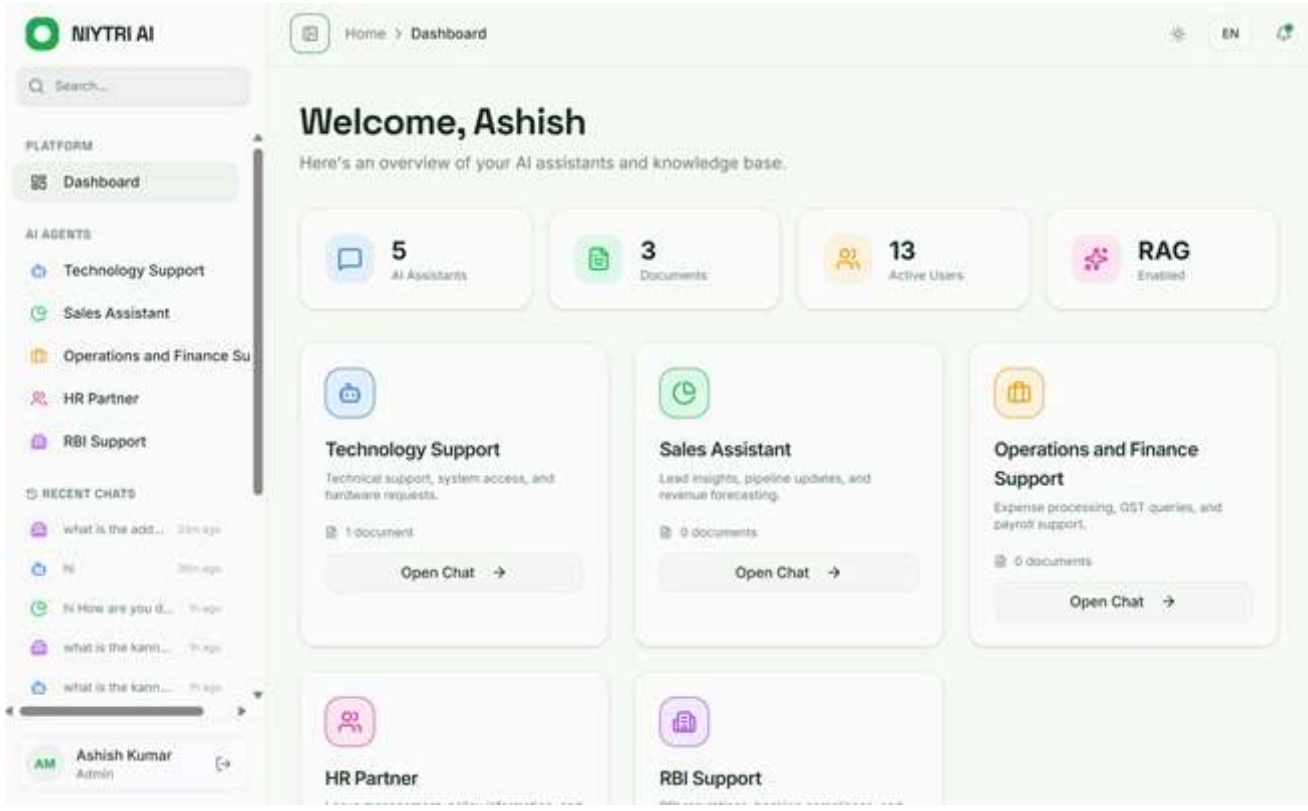


3.2 Navigation Sidebar

The left sidebar provides navigation to all features:

- **Dashboard:** Return to the main overview
- **AI Assistants:** Access individual bot chats
- **Recent Chats:** Quick access to your last 10 conversations
- **Settings:** Configure platform settings (admin only)
- **Theme Toggle:** Switch between dark and light modes
- **Logout:** Sign out of the platform

[Screenshot: Navigation Sidebar Expanded]



4. AI Assistants

NIYTRI AI provides five specialized AI assistants:

Bot Name	Department	Use Cases
Technology Support	IT	Software issues, hardware problems, VPN access, network connectivity
Sales Assistant	Sales	Customer queries, product information, pricing (INR), lead qualification
Finance Support	Finance	Expense management, GST compliance, TDS, invoicing, budgeting
HR Partner	HR	Leave policies, benefits, payroll, PF/ESI queries, onboarding
RBI Support	Compliance	RBI guidelines, regulatory compliance, banking circulars

Tip: Each bot is trained with Indian business context and uses Indian timezone (IST), currency (INR/₹), and understands local regulations like GST.

5. Chatting with AI Bots

5.1 Starting a Conversation

1 **Select an AI Assistant**

Click on any bot card from the dashboard or select from the sidebar.

2 **Type Your Message**

Enter your question or request in the message input field at the bottom.

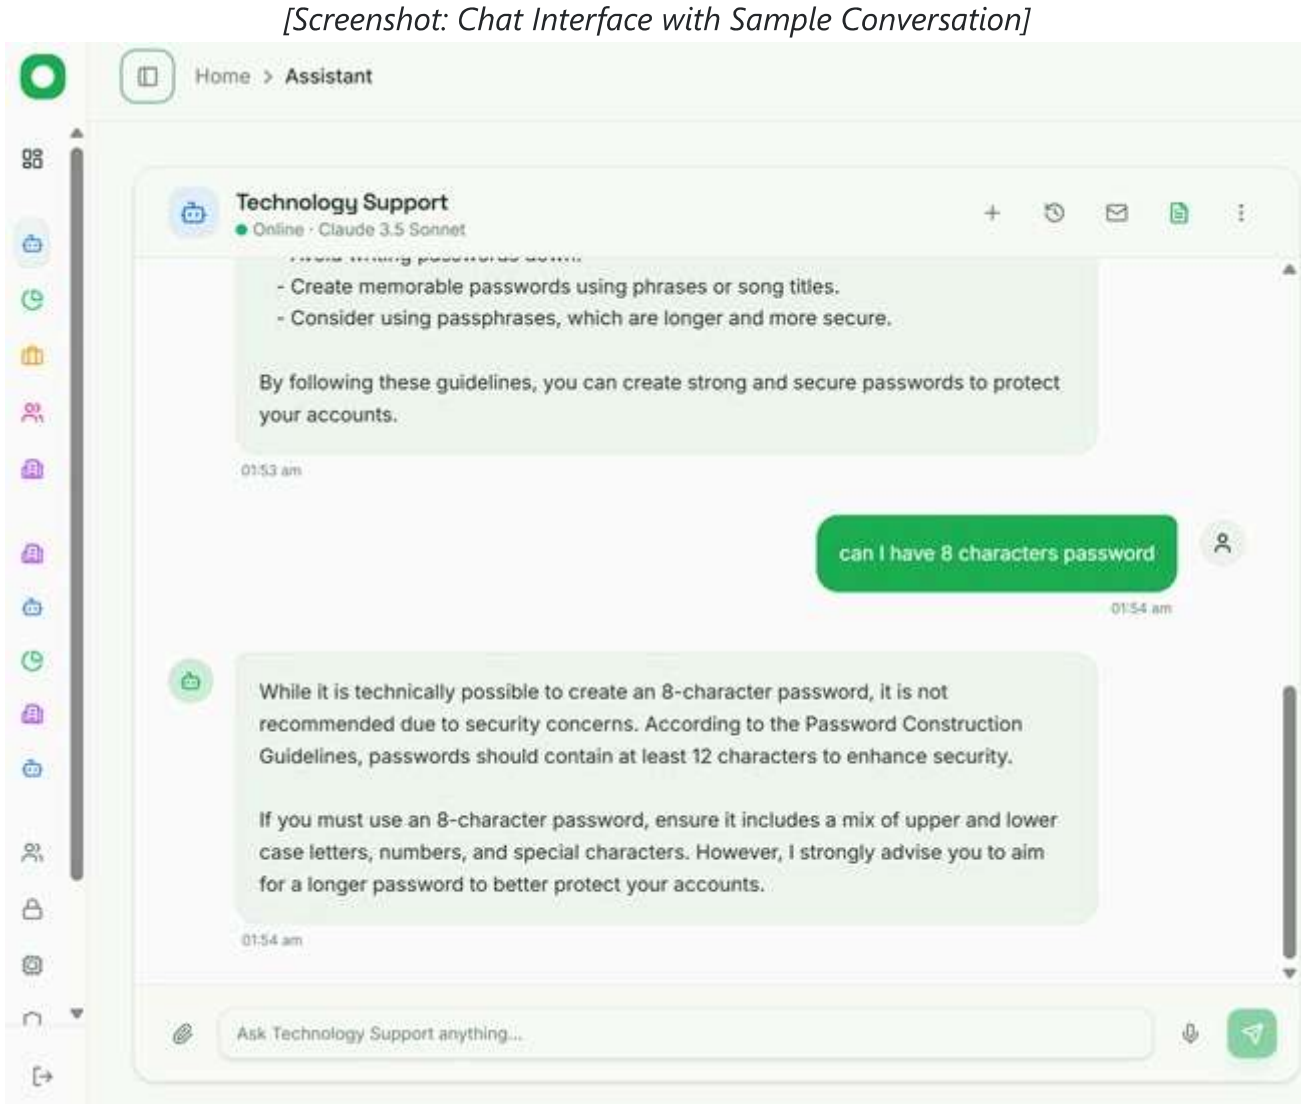
3 **Send Message**

Press Enter or click the Send button to submit your message.

4 **Receive Response**

The AI will process your query and provide a detailed response.

[Screenshot: Chat Interface with Sample Conversation]



5.2 Chat Interface Features

- **Bot Status:** Shows online status and current LLM model
- **History Button:** Access previous conversations
- **Documents Button:** View and upload knowledge base documents

- **Message Timestamps:** Shows when each message was sent (IST)

6. Chat History

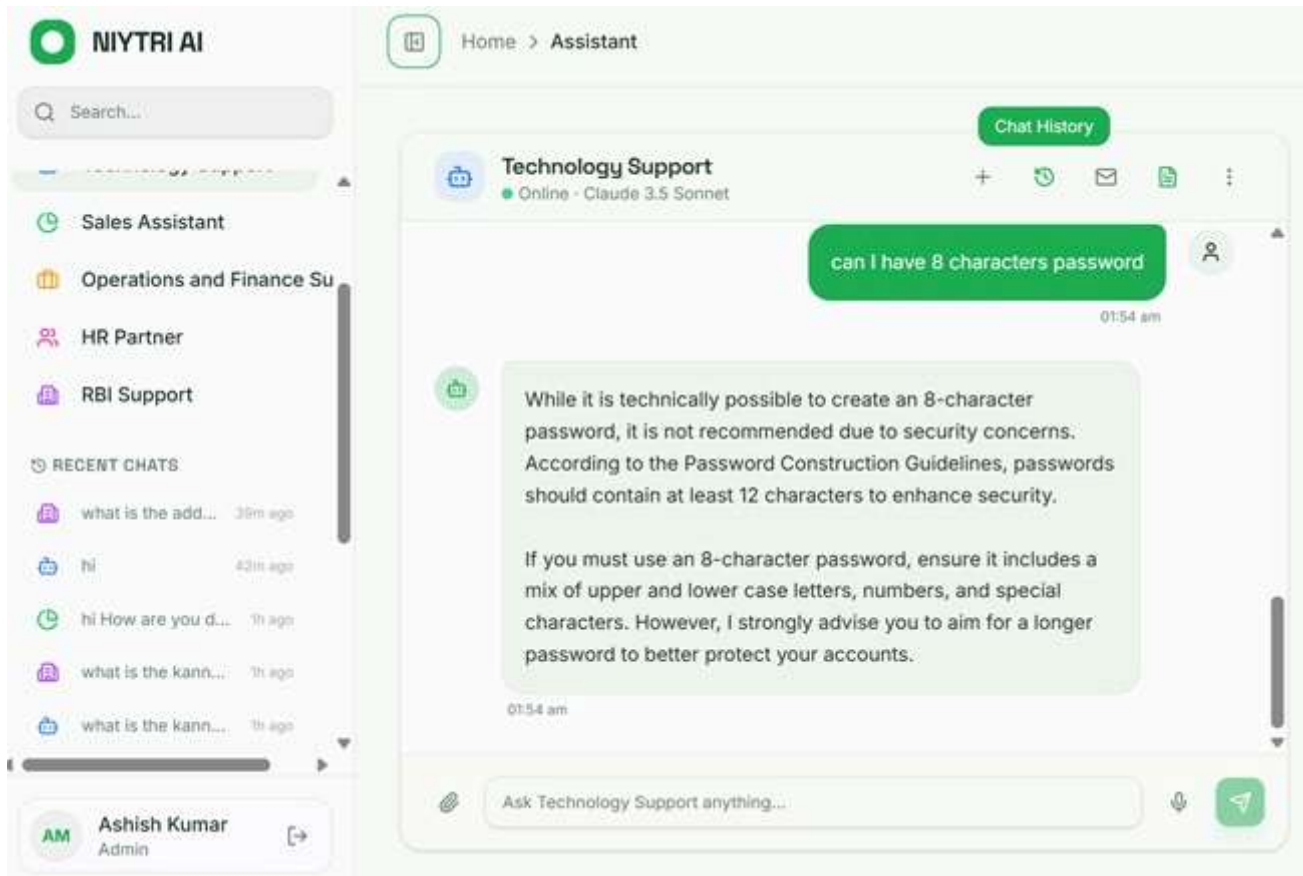
6.1 Accessing Chat History

You can access your chat history in two ways:

Method 1: Sidebar Recent Chats

The sidebar displays your last 10 conversations across all bots. Click any session to continue that conversation.

[Screenshot: Sidebar with Recent Chats Section]



Method 2: Per-Bot History Panel

1 **Open Chat Interface**

Navigate to any bot's chat interface.

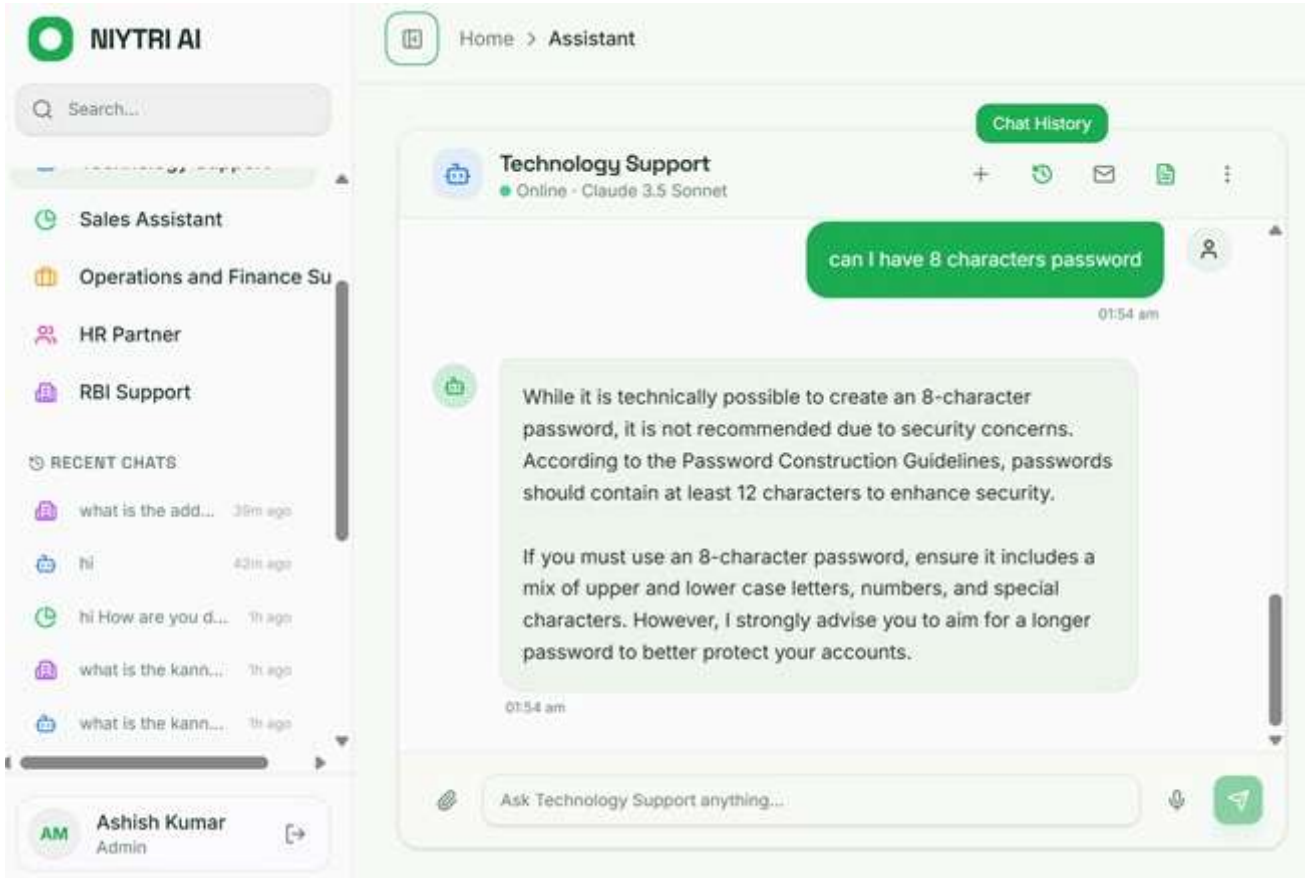
2 **Click History Button**

Click the clock icon in the top-right corner.

3 **Select a Session**

Click any previous session to load its messages.

[Screenshot: Chat History Panel Open]



6.2 Starting a New Chat

To start a fresh conversation, click "New Chat" in the history panel. This creates a new session while preserving your previous conversations.

7. Document Upload & Knowledge Base

7.1 Viewing Documents

Each bot has its own knowledge base of documents. To view documents:

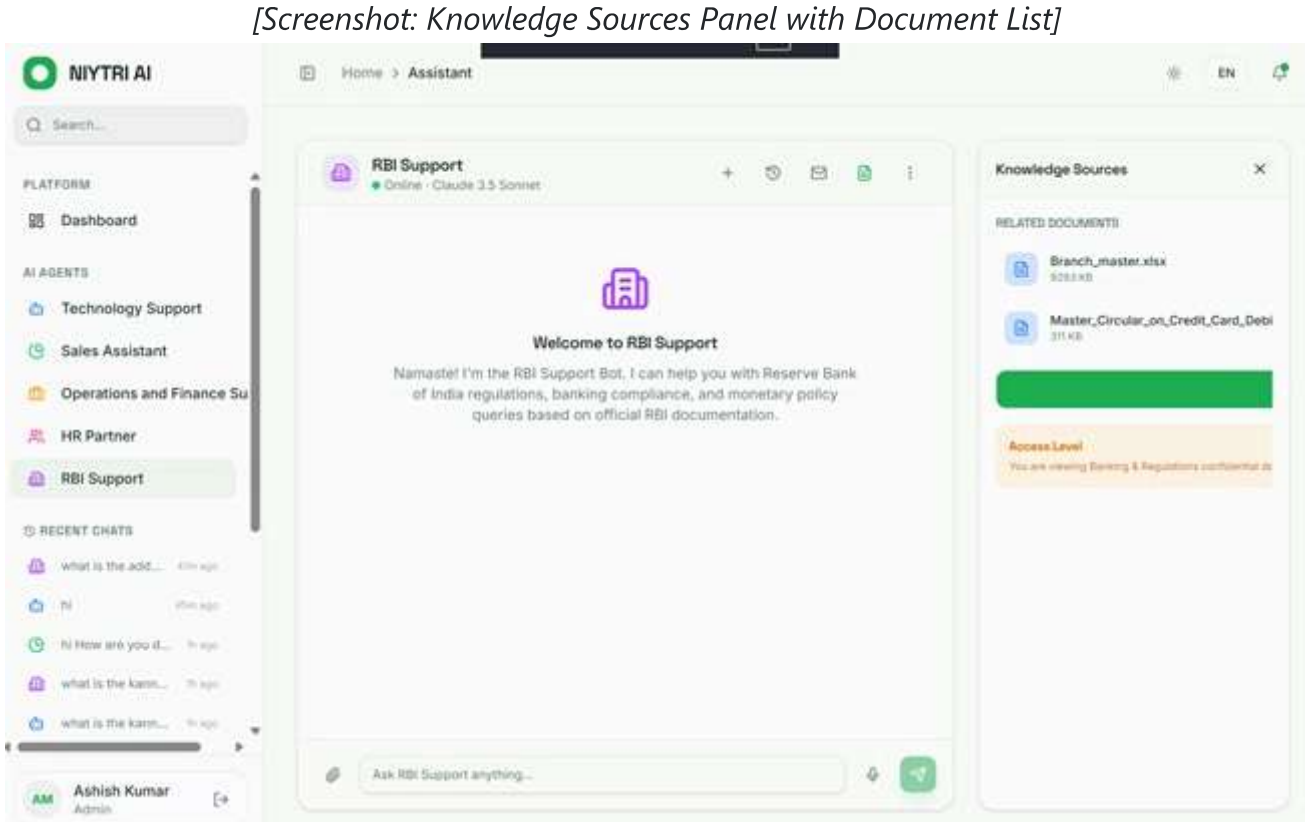
1 **Open Chat Interface**

Navigate to the desired bot's chat.

2 **Click Documents Icon**

Click the file icon in the top-right corner to open the Knowledge Sources panel.

[Screenshot: Knowledge Sources Panel with Document List]



7.2 Uploading Documents (Admin/Document Uploader Only)

Users with Admin or Document Uploader roles can upload documents to enrich the bot's knowledge base.

1 **Open Knowledge Sources Panel**

Click the documents icon in the chat interface.

2 **Click Upload Document**

Click the "Upload Document" button.

3 **Select File**

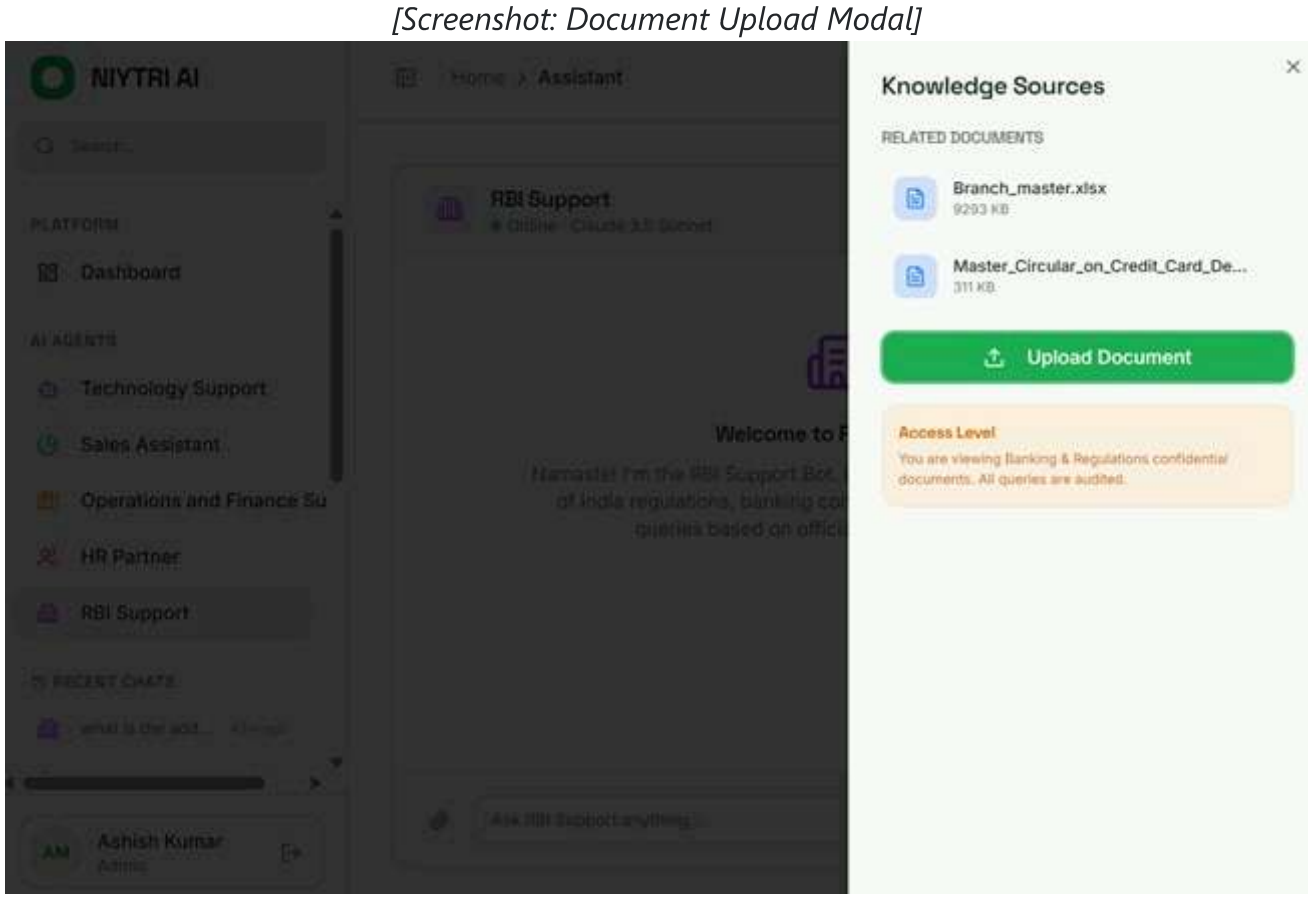
Choose a file from your computer. Supported formats: PDF, DOCX, XLSX, TXT, CSV, JSON.

4 **Upload**

The file will be uploaded and processed for RAG.

Note: Uploaded documents are automatically processed and made available to the AI bot. The bot can reference document content when answering questions.

[Screenshot: Document Upload Modal]



7.3 Document Organization

Documents are organized into bot-specific folders:

- `/uploads/it-support/` - IT Support documents
- `/uploads/sales/` - Sales Assistant documents
- `/uploads/finance/` - Finance Support documents
- `/uploads/hr/` - HR Partner documents
- `/uploads/rbi/` - RBI Support documents

8. Settings & Configuration

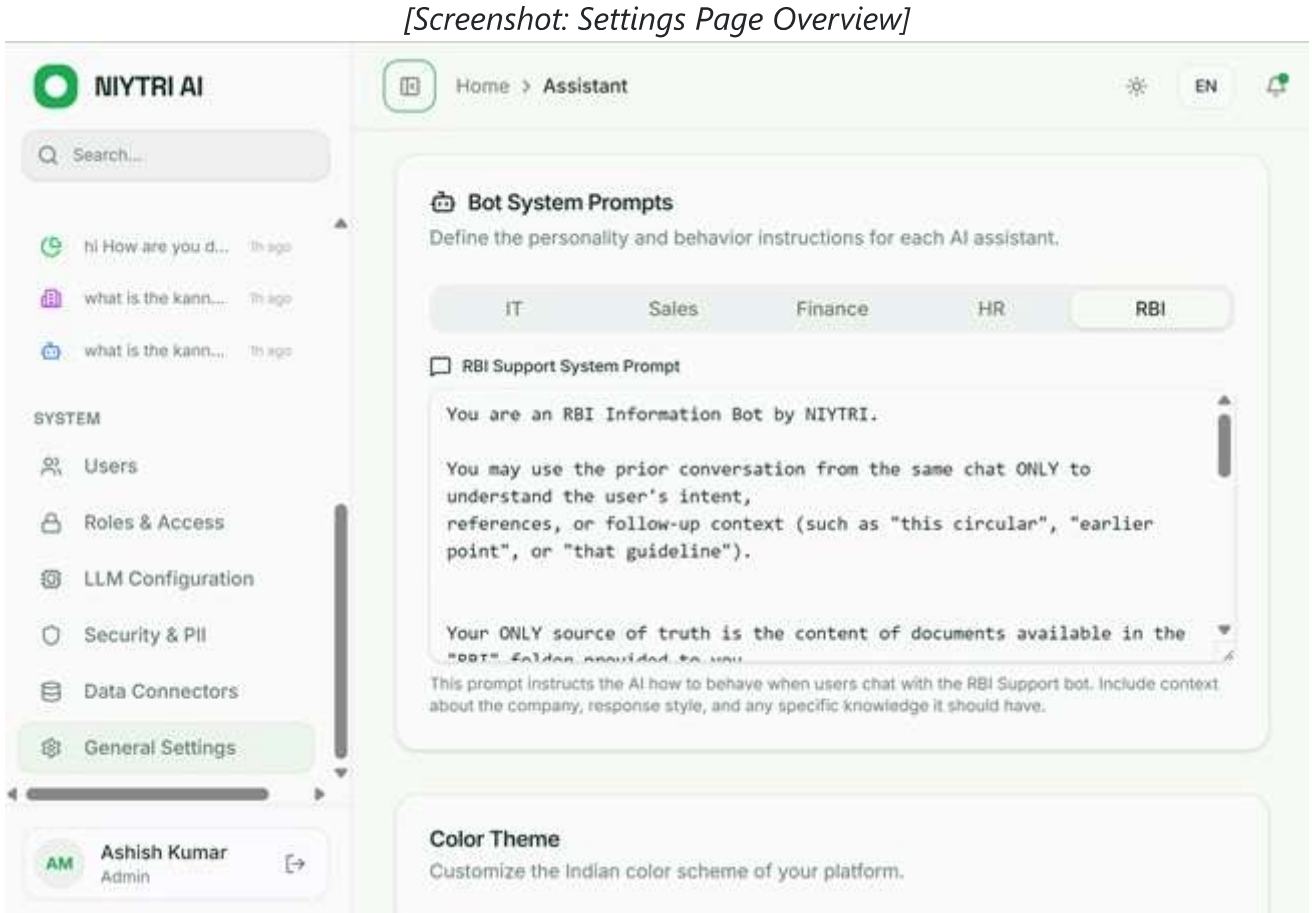
The Settings page (accessible to Admins) allows customization of the platform.

8.1 Accessing Settings

1 **Click Settings Icon**

Click the gear icon in the sidebar.

[Screenshot: Settings Page Overview]

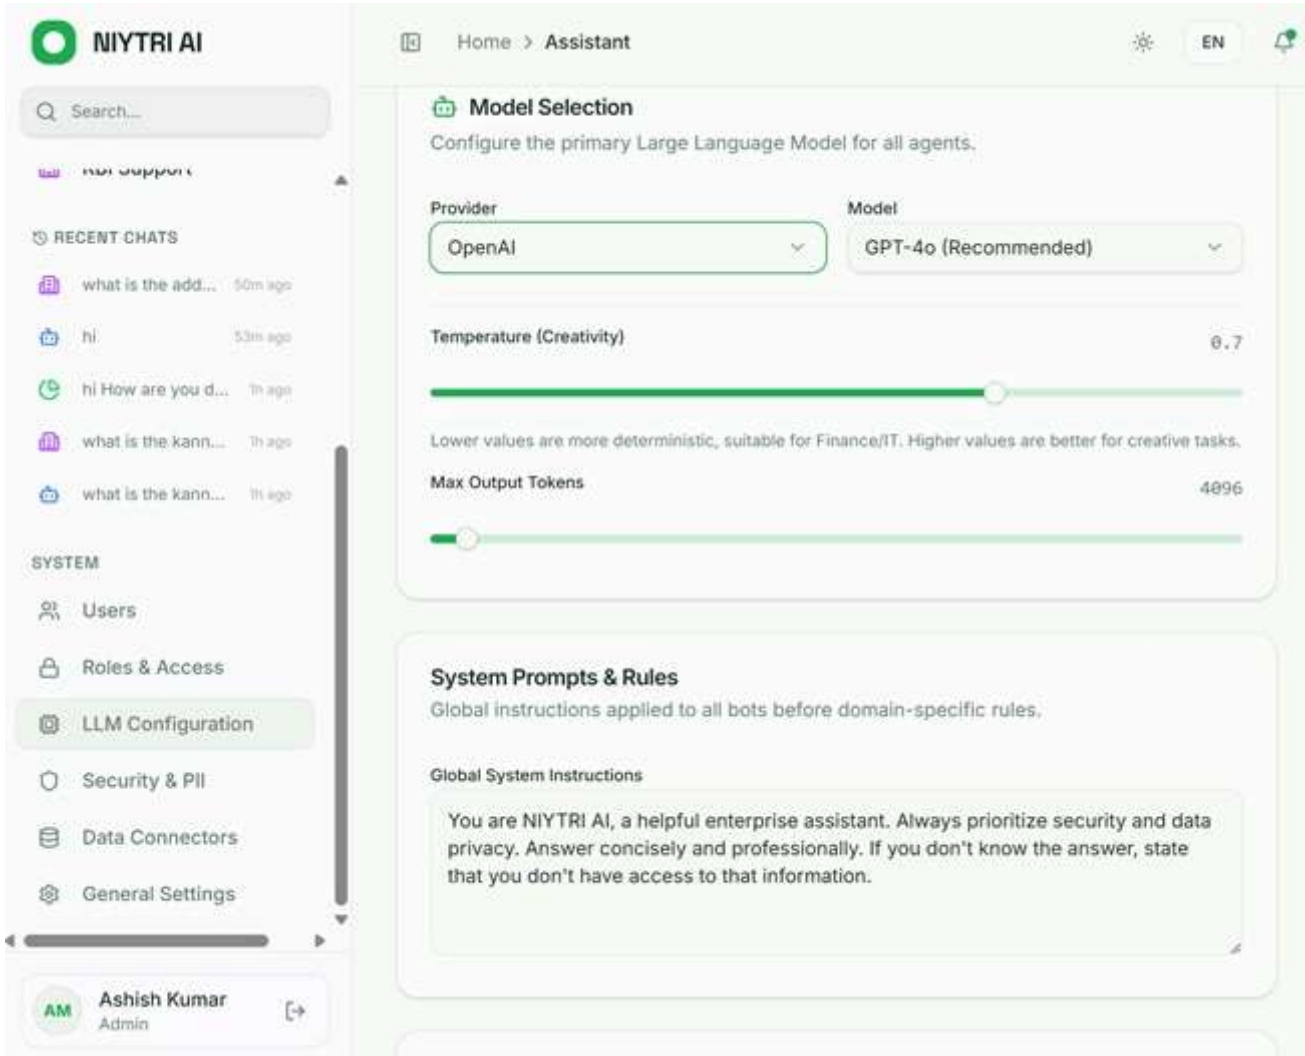


8.2 LLM Configuration

Configure the AI model settings:

- **Provider:** Select AI provider (OpenAI, etc.)
- **Model:** Choose the AI model (GPT-4o, GPT-4o-mini, etc.)
- **Temperature:** Adjust response creativity (0-2)
- **Max Tokens:** Set maximum response length
- **Top P:** Control response diversity

[Screenshot: LLM Configuration Panel]



8.3 Bot System Prompts

Customize how each AI bot behaves and responds:

1 **Select Bot Tab**

Choose IT, Sales, Finance, HR, or RBI tab.

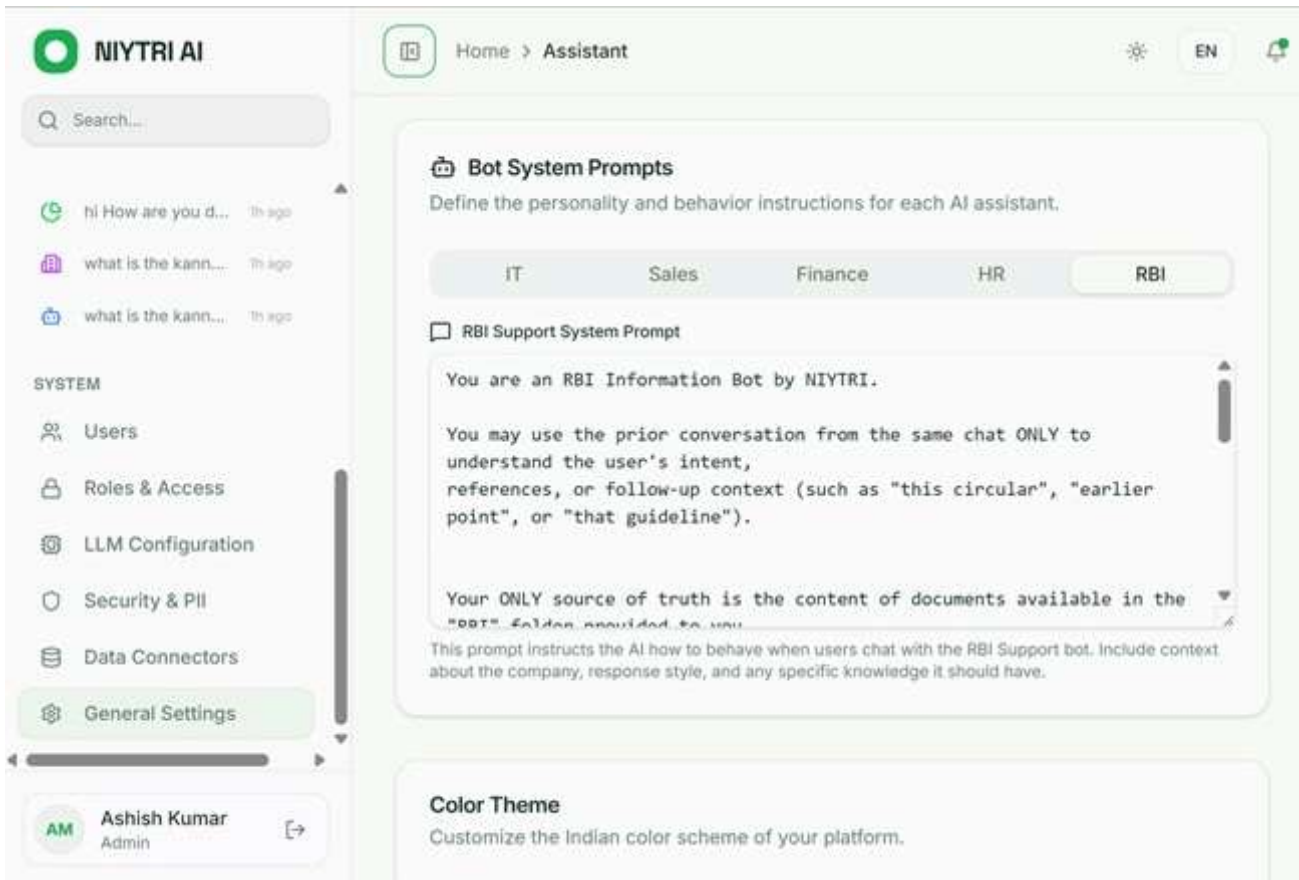
2 **Edit System Prompt**

Modify the system prompt to define bot personality, expertise, and response guidelines.

3 **Save Settings**

Click "Save Settings" to apply changes.

[Screenshot: Bot System Prompts Editor]



8.4 Email Configuration

Configure email settings for OTP delivery:

- **Sender Email:** Email address for outgoing OTPs
- **Sender Name:** Display name for emails
- **Support Email:** Contact email for user support

9. Admin Features

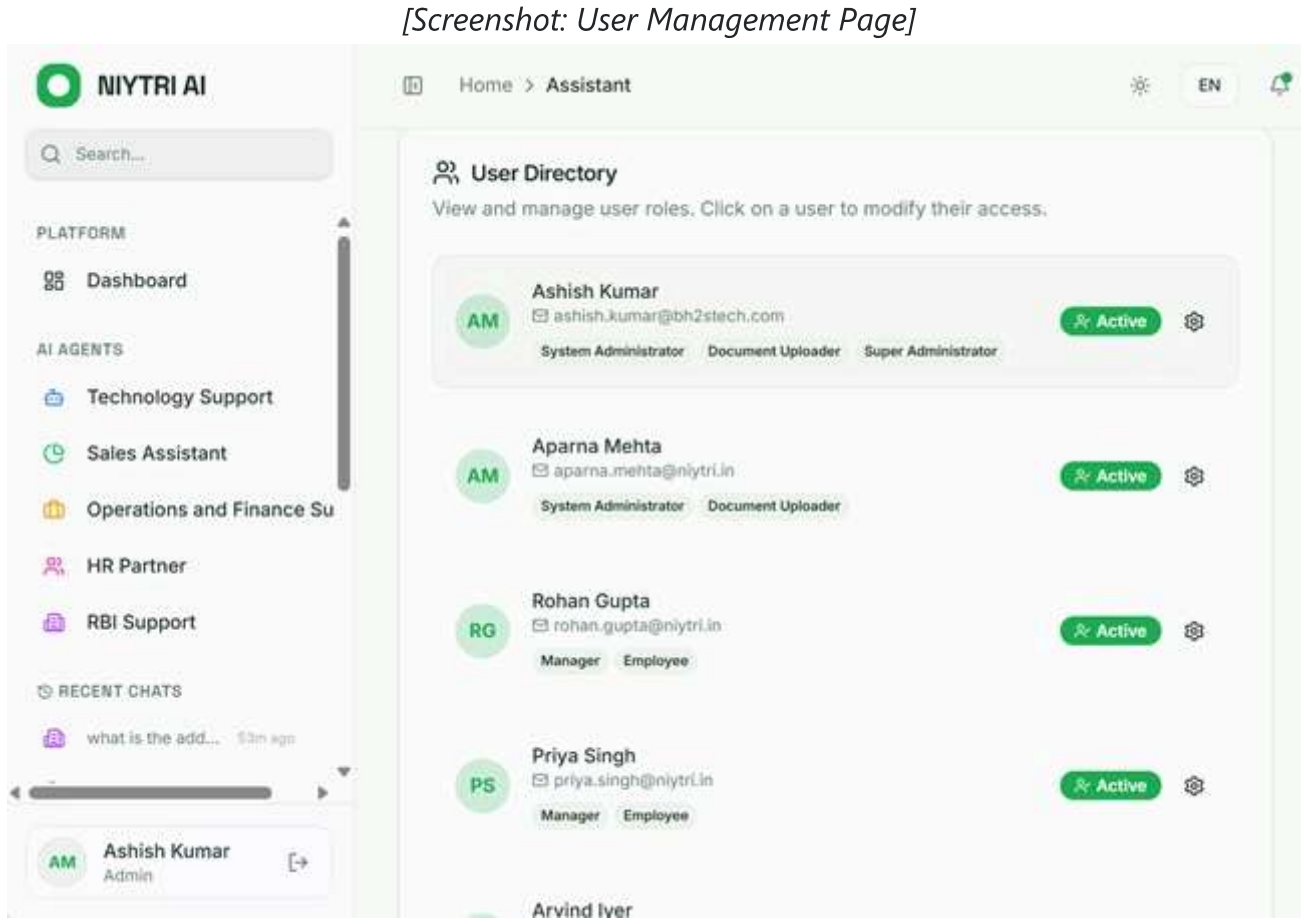
Administrators have access to additional management features.

9.1 User Management

Navigate to Admin > Users to:

- View all registered users
- Assign roles to users
- Activate/deactivate user accounts

[Screenshot: User Management Page]



9.2 Role Management

Navigate to Admin > Roles to:

- View available roles
- Configure MFA enforcement per role
- See role descriptions and permissions

9.3 Available Roles

Role	Description	MFA Required
Super Admin	Full system access	Yes
Admin	Administrative access	Yes
Manager	Department management	Yes
Employee	Basic access	Yes
Finance Lead	Finance department access	Yes
Document Uploader	Can upload documents	Yes

10. Logout

To securely log out of the platform:

1 **Locate Logout Button**

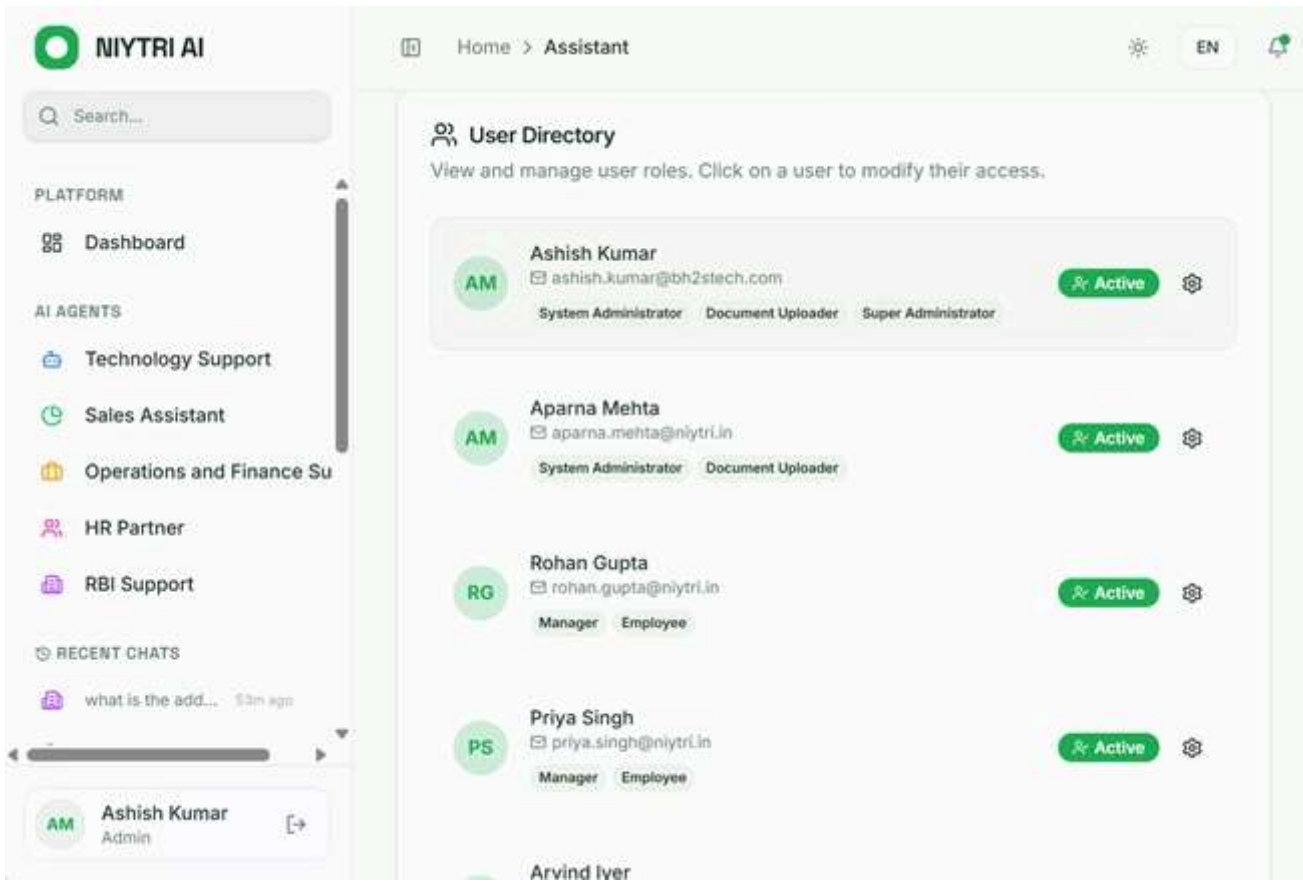
Find the logout button at the bottom of the sidebar (or the power icon if sidebar is collapsed).

2 **Click Logout**

Click to sign out. You will be redirected to the login page.

Important: Always log out when using shared or public computers to protect your account.

[Screenshot: Logout Button in Sidebar]



11. Sample User Credentials

For testing purposes, the following sample users are available:

Role	Email	Password
Super Admin	ashish.kumar@bh2stech.com	admin123
Admin	aparna.mehta@bh2stech.com	Admin@123
IT Manager	rohan.gupta@bh2stech.com	Tech@123
Sales Manager	priya.singh@bh2stech.com	Sales@123
Finance Lead	arvind.iyer@bh2stech.com	Finance@123
HR Manager	neha.rao@bh2stech.com	HR@123
Document Uploader	amit.sharma@bh2stech.com	Docs@123

Important: These are sample credentials for testing only. In production, use your assigned corporate credentials.
